

Scoff Code

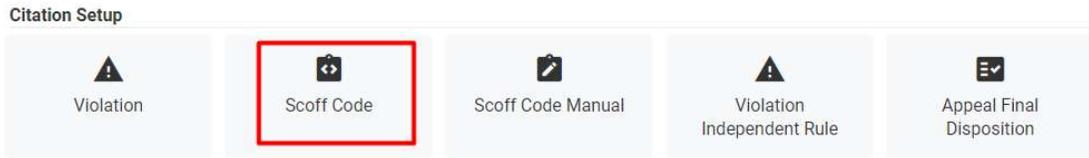

Figure 61 Settings >> Scoff Code

Scoff Codes allow ARMS Parking to automatically track the number of citations a person has received for a specific violation type and increase the fine as desired. From this tab, the admin can search, view, and add/edit scoff codes.

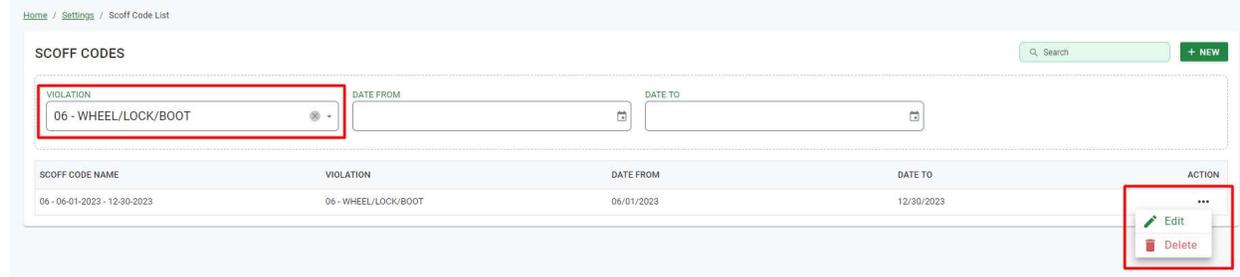

Figure 62 Scoff Code

To add a scoff code, click on "New", a dialog will pop up in which the admin needs to select the violation and date range for the scoff code. After selecting the violation and date range, the Admin can set all details for each subsequent violation infraction, including Fine, and whether to Boot/Tow the vehicle.

For example, a second violation of PARKED IN RESTRICTED can be set for a \$100 Fine, a third violation set for a \$200 Fine with the vehicle marked to be Booted, and a fourth violation set for a \$500 Fine with the vehicle marked to be Towed. Admin might also configure to Boot vehicle or Tow Vehicle.

SCOFF CODE SETUP

SCOFF CODE NAME *	VIOLATION *	DATE FROM *	DATE TO *
PARKED IN RESTRICTED	01 - PARKED IN RES... <input type="button" value="x"/>	06/19/2024 <input type="button" value="x"/>	08/13/2024 <input type="button" value="x"/>
Offense #2			
CODE *	DESCRIPTION *	FINE	<input type="radio"/> BOOT VEHICLE <input type="radio"/> TOW VEHICLE <input checked="" type="radio"/> NONE
OFF2	2ND OFFENSE	\$ 20	
Offense #3			
CODE *	DESCRIPTION *	FINE	<input checked="" type="radio"/> BOOT VEHICLE <input type="radio"/> TOW VEHICLE <input type="radio"/> NONE
OFF 3	3RD OFFENSE	\$ 30	
Offense #4			
CODE *	DESCRIPTION *	FINE	<input type="radio"/> BOOT VEHICLE <input checked="" type="radio"/> TOW VEHICLE <input type="radio"/> NONE
OFF 4	4TH OFFENSE	\$ 50	
<input type="button" value="+ ADD NEXT"/> <input type="button" value="- REMOVE"/>			
<input type="button" value="SUBMIT"/>			

Figure 63 Dialog >> Scoff code setup

As per the above example in the image, the officer will get a boot vehicle alert on the third citation and a Tow vehicle alert on the fourth citation.
